FORMULATION OF PROANTHOCYANIDIC PLANT EXTRACT AND EUCALYPTUS GLOBULUS FOR HUMAN CONSUMPTION

STABILIZES THE COLOR. REDEVELOPING THE FRESHNESS OF HEAVY WINES.

100% NATURAL, WITHOUT PRESERVATIVES. WITHOUT GMO.

Application

TANOPLUS AR FRESH® contributes to the stabilization of the color.

TANOPLUS AR FRESH® is advised for heavy beverages and/or destructured wines.

Description and Uses

TANOPLUS AR FRESH® is a product developed by Partoeno R&D and tested by the University of Bordeaux, France and key wine consultants on different wines, regions and vintages.

• Another new product ?

Partoeno has compared TANOPLUS AR FRESH® to most of existing formulations on the market. In all cases, it was judged by an independent panel as giving better results and being more cost-effective.

TANOPLUS AR FRESH® IS A PRODUCT INTENDED TO REFRESH THE WINES AND ADVICE FOR HEAVY WINES.

When to use TANOPLUS AR FRESH® ?

Wines that are considered to be outside the acceptable range eg : all wines lacking of structure should be lab- treated with TANOPLUS AR FRESH®.

The treated wines can be tasted the same day of the treatment, however it is recommended to wait at least 48 hours.

Furthermore, revalue wines of average range at a lower cost.

It is recommended to use TANOPLUS AR FRESH® at a dosage between **2 et 15 g/hl** for red wine and between **2 et 7 g/hl** for white and rosé wine after dilution in wine. The dosage, and therefore the treatment cost, can be optimised by doing direct trials in bottles at different concentrations.
